

association mapping for photosynthesis and yield traits ... - association mapping for photosynthesis and yield traits under two moisture conditions and their drought indices in winter bread wheat (*triticum aestivum* l.) using ssr markers iqbal 1saeed 1,2 , xiaojie chen ,3 , daoura goudia bachir 1 , liang chen 1 , yin-gang hu 1,4*

correlation and path coefficient studies of yield and ... - the association among yield and yield contributing traits and identify traits those have the most direct and indirect effects on grain yield. analysis of variance revealed that there was a significant difference among the sixty four genotypes for all the characters studied. grain yield had positive correlation with grain filling period, number of productive tillers per plant, spike length ... **analysis of yield components and their association in ...** - traits including diseases of yield in wheat. it was observed that days to maturity, tillers plant -1 , effective tillers plant -1 , grain weight spike, grain yield plant and leaf blight-1, leaf blight-2, **evaluation of bread wheat genotypes for variability and ...** - evaluation of bread wheat genotypes for variability and association among yield and yield related traits rehmat kabir 1, israr ahmed 2, attiq ur rehman 2, maqsood qamar 3, anisa intikhab ... **study of genetic variability and character association for ...** - indicating the true relationship between these traits as good contributors to grain yield. as a result, these traits could be considered as important traits for selection in breeding programme for higher grain yield of the bread wheat. key words: variability , heritability , genetic advance, characters association, grain yield and bread wheat introduction wheat is an important cereal and main ... **association studies for agro-physiological and quality ...** - journal of environmental biology april, 2007 association studies in triticale x bread wheat derivatives for drought and cold stress table - 2: estimates of direct and indirect effects of different traits on grain yield at phenotypic level **character association and path coefficient analysis among ...** - in association with national environmentalists association, india neaindia sunil diyali et al. character association and path coefficient analysis among yield attributing traits in bread wheat wheat correlation path coefficient analysis. 76 sunil diyali, bhanu priya* and subhra mukherjee department of genetics & plant breeding, bckv, nadia 741 252, west bengal, india e-mail ... **analysis of genetic variability parameters for yield and ...** - genetic variability for yield and rust resistance in bc2f3 bread wheat 200 using a modified cobb's scale. the final disease severity data for the leaf rust was converted into a coefficient of **association of yield-related traits in founder genotypes ...** - association of yield-related traits in founder genotypes and derivatives of common wheat (*triticum aestivum* l.) jie guo1, weiping shi1, zheng zhang1, jingye cheng3, daizhen sun1, jin yu1, xinlei li1, pingyi guo1* and chenyang hao2* abstract background: yield improvement is an ever-important objective of wheat breeding. studying and understanding the phenotypes and genotypes of yield-related ... **character association and heritability analysis in ...** - selection for these traits will automatically improve seed yield in wheat because the five yield contributing traits are associated among themselves, selection in one of the traits will wholly ... **correlation studies among productions traits in bread ...** - phenotypic association with biological yield ($r = 0.28$) association of 1000-grain weight with grain yield and yield** and grain yield ($r = 0.27$) only. on the other hand, grains associated traits.
